SUMMARY

Full-Stack / Backend Developer specializing in Node.js, Express.js, React.js, and modern database systems. Experienced in building RESTful APIs, authentication and authorization systems, database-driven applications, and integrating backend services with responsive frontend applications. Strong focus on clean, maintainable code, secure architecture, API design, and translating practical business requirements into reliable technical solutions.

EXPERIENCE

Full Stack Developer (Freelance)

Self-employed | Remote

2025 – Present

- Developed and maintained full-stack web applications using Node.js, Express.js, React.js, and MongoDB/PostgreSQL.
- Built scalable RESTful APIs and integrated them with responsive frontend applications.
- Implemented authentication and authorization systems using JWT and OAuth.
- Worked on database design, API optimization, error handling, and secure backend architecture.
- Collaborated with clients to understand business requirements and deliver customized solutions.
- Used Git/GitHub for version control and followed clean code and MVC architecture principles.

Sales Representative / Sales Specialist

2018 – 2023

- Built strong communication and negotiation skills through 5 years of experience in sales.
- Managed customer relationships and handled client requirements professionally.
- Achieved sales targets through effective persuasion and problem-solving techniques.
- Developed deep understanding of customer behavior and business needs.
- Improved teamwork, presentation, and interpersonal communication skills.
- Gained practical experience in handling pressure, decision-making, and time management.

TECHNICAL SKILLS

- **Backend & Languages:** JavaScript (ES6+) - TypeScript - Node.js - Express.js

- **API & Server Development:** RESTful APIs
- Authentication & Authorization (JWT, OAuth)

Error Handling & Validation (Joi/Zod)

File Upload

- **Others**

Socket.io (Real-time apps)

MVC Architecture

- **Frontend: React.js - JQuery - Tailwind CSS- Bootstrap CSS**

EDUCATION

Bachelor degree in Biophysics

- Faculty of Science, Tanta University – Ongoing / Expected [2026]

COURSES AND CERTIFICATES

Technical Learning

CS50x: Introduction to Computer Science

- Harvard University via edX – Completed 2024

T-Square Academy – Front-end development (React.js)

Mahara tech: Fullstack development using MERN stack

- Backend development using Node.js , Express.js and MongoDB at Mahara teck represented from ITI (Information Technology Institute)
- Learned how to build RESTful API , Implement Authentication and Authorization tools, Error handling and mongoDB as NoSQL database

Soft skills Learning

Creative hub Tanta: InnovEgypt Program How to build

- innovative solutions and products
- How to build Startup company with a creative idea and excellent team membe
- How to implement design thinking process into your solution and study problems deeply

Creative hub Tanta: Art of Influence Program

- Emotional Intelligence: How to empathize with your own feelings, understand those around you, and build strong relationships.
- Communication Skills: Communicate your message clearly and listen effectively.
- Presentation Skills: Present in a way that makes your audience listen, trust you, and be moved by your words.

Creative hub Tanta: ESP (Elevate Skills Program)

- Learned critical thinking& problem solving
- Decision making
- Leadership skills
- Teamwork & time management
- Vision–Passion–Values & Goal Setting
- Work-life balance concept
- Presentation skills & public speaking

LANGUAGES

- **Arabic: Native**
- **English: B2**
- **German(Deutsche): A1**
